

VIQ SOLUTIONS INC. PRIVACY POLICY

At VIQ Solutions Inc., we take the Privacy of our Customers, visitors, and users, (collectively "Users" or individually a "User") seriously. This VIQ Solutions Inc. Privacy Policy ("Privacy Policy") describes our privacy practices and applies to all of the voice and video capture/transcription products and services (collectively, the "Services"), we offer to Users, as well as to our websites. Please read this Privacy Policy carefully to learn how we collect, use, share and otherwise process personally identifiable information, and information that can reasonably be used to contact or distinguish a person, (collectively "Personal Data"), and your rights and choices regarding our processing of your Personal Data.

A reference to "VIQ", "we," "us," "our," or the "Company" is a reference to VIQ Solutions Inc, a Canadian company, and includes VIQ's subsidiaries and affiliates ("Related Companies"). A reference to "you" or "your" means the User, individual, or if applicable, the company or legal entity you represent.

1. Activities Covered

This Privacy Policy applies to the following activities:

- The use of our Services;
- Visiting our websites
- Creating, changing or using an account or User profile;
- Browser web storage, application data caches or similar technologies;
- Social media platforms and applications, or demographics derived from the profiles Users create;
- Visiting our offices;
- Entering into transactions with our Customers;
- Interacting with our personnel, whether in person, on the telephone, via email or any other form of communication;
- Interacting with and submitting inquiries to third parties with whom we have a relationship; and

In particular, this Privacy Policy sets forth VIQ's policy with respect to its processing of two types of data:

- Personal Data that users of our Services ("Customers") ask us to process on their behalf ("Processor Data"), which will include any Personal Data that Customers provide to us to transcribe, capture, translate, or otherwise process for them. VIQ is the "processor" of the data under applicable law, and the Customer is the "controller", when VIQ processes personal data on behalf of a Customer. Any Processor Data collected is done so based on VIQ's reliance upon representations made by VIQ's Customer as to their lawful right to collect the applicable Personal Data.
- Data, including Personal Data, that we process for our own business ("Controller Data"), other than for our human resources and recruiting operations. This includes, for example, the information we collect through any of our websites and the names and

contact information of our Customers and vendors. Under applicable law, VIQ is deemed to be the “Controller” of such data.

When webpages and applications (mobile or otherwise) are controlled by us and links to this Privacy Policy (each a “Site” and collectively “Sites”), this Privacy Policy applies. Our websites may contain links to other websites, applications and services maintained by third parties in which case the privacy policy of such third party applies and this Privacy Policy does not apply. The information practices of such other services are governed by the third-party privacy policies, which we encourage you to review to better understand those third parties’ privacy practices.

2. VIQ’s collection, use, and disclosure of Processor Data:

In some but not all cases, this content is protected by Customer-managed encryption and credentials, but in some instances VIQ’s employees and contractors may have access to this information, or the right to manage it on behalf of Customers.

- **Business Transfers:**As we develop our business, we might sell or buy businesses or assets. In the event of a corporate sale, merger, reorganization, dissolution or similar event, including during negotiations of such an event, Processor Data may be part of the transferred assets.
- **Related Companies:** We may also share Processor Data with our Related Companies for purposes consistent with this Privacy Policy.
- **Agents, Consultants and Related Third Parties:** VIQ, like many businesses, sometimes hires other companies to perform certain business-related functions. Examples of such functions include, without limit, maintaining databases.

Such services may also collect or derive information about visitors’ use of other websites or properties.

As a User, you acknowledge that you accept and consent to our privacy practices as well as those practices indicated in the privacy policies of Google Analytics, Facebook and any other Third-Party Analytics Providers we use as linked below.

The following is a list of Third-Party Analytics Providers with whom we partner to place advertisements across the internet.

4.3 Remarketing

previous visitors to our site. This could mean that we advertise to previous visitors who haven't completed a task on our site, for example using the contact form to make an inquiry, looking at a product page or initiating a purchase even if such if it is not completed. Such remarketing could be in the form of an advertisement on the Google search results page, a site in the Google Display Network or site in another network. Third-party vendors, including Google, use cookies to serve ads based on someone's past visits to the VIQ.com website. Data collected from our sites will be used in accordance with our Privacy Policy and the privacy policy of the applicable third-party vendor.

5. What device and usage data we process?

We use common information-gathering tools, such as log files, cookies, web beacons, device identifiers and similar technologies to automatically collect information, which may contain Personal Data, from your computer or mobile device as you navigate our websites or interact with emails and other messages we send you.

5.1 Non-Personally Identifying Information and Log Files

As is true of most websites, we gather certain other non-personally identifying information ("Non-PII") automatically via log files. This collected Non-PII may include your Internet Protocol (IP) address (or proxy server), device and application identification numbers, your location, your browser type, your Internet service provider and/or mobile carrier, the pages and files you viewed, your searches, your operating system and system configuration information, and date/time stamps associated with your usage. This Non-PII is used to analyze overall trends, to help us provide and improve our websites and to guarantee their security and continued proper functioning. We may also collect IP addresses from users when they log into the services as part of the Company's security features.

5.2 Cookies, web beacons and other tracking technologies

We use cookies and similar technologies such as web beacons, tags and JavaScript alone or in conjunction with cookies to compile information about usage of our websites and interaction with emails from us.

When you visit our Sites, our servers or an authorized third party may place a cookie on your browser, which can collect information, including Personal Data, about your online activities over time and across different sites. Cookies allow us to track overall usage, determine areas that you prefer, make your usage easier by recognizing you and providing you with a customized experience.

We may use both session-based and persistent cookies. Session cookies exist only during one session and disappear from your computer when you close your browser software or turn off your computer. Persistent cookies remain on your computer or device after you close your browser or turn off your computer. You can control the use of cookies at the individual browser level, but if you choose to disable cookies, it may limit your use of certain features or functions on our websites or services. To opt-out of tracking by Third Party Analytics Providers, please use the specific opt-out mechanism as indicated further below.

We may also use web beacons on our Sites and other electronic marketing. For example, we may place web beacons in marketing emails that notify us when you click on a link in the email that directs you to one of our websites. Such tracking technologies are used to operate and improve our websites and digital communications and track the clicking of links or opening of messages.

The Third Party Analytics Providers in the table in Section 4.2 are the third party vendors with whom we partner to place advertisements across the internet.

As described above, we or third parties may place or recognize a web beacon or unique cookie on your browser when you visit our Sites for the purposes of serving you targeted advertising (also referred to as “online behavioral advertising” or “interest-based advertising”). To learn more about targeted advertising, advertising networks and your ability to opt out of collection by certain third parties, please visit the opt-out pages of the Network Advertising Initiative, [here](#), and the Digital Advertising Alliance, [here](#).

To manage the use of targeting or advertising cookies on this website, consult your individual browser settings for cookies. To learn how to manage privacy and storage settings for Flash cookies [click here](#). Various browsers may offer their own management tools for removing HTML5 local storage.

5.3 Opt-Out from the collection of device and usage data

You may opt-out from the collection of some device and usage data (see “What device and usage data we process” section above) by managing your cookies at the individual browser level. In addition, if you wish to opt-out of interest-based advertising click [here](#), or if located in the European Union click [here](#)). Please note, however, that by blocking or deleting cookies and similar technologies used on our websites, you may not be able to take full advantage of the website.

While some internet browsers offer a “do not track” or “DNT” option that lets you tell websites that you do not want to have your online activities tracked, these features are not yet uniform and there is no common standard that has been adopted by industry groups, technology companies or regulators. Therefore, we do not currently commit to responding to browsers’ DNT signals with respect to our websites. In other words, we do not alter our practices with respect to the collection of information based upon a user’s selection of the DNT setting or other opt out setting. If a person selects DNT we record and maintain their preferences. VIQ takes privacy and meaningful choice seriously and will make efforts to continue to monitor developments around DNT browser technology and the implementation of a standard.

5.4 Social Media Features

Our websites may use social media features or plugins, such as the Facebook “like” button, the Twitter “Tweet” button and other sharing widgets (“Social Media Features”). You may be given the option by such Social Media Features to post information about your activities on a website to a profile page of yours that is provided by a third-party social media network in order to share with others within your network. Social Media Features are either hosted by the respective social media network or hosted directly on our website. To the extent the Social Media Features are hosted by the respective social media networks, the latter may receive information that you have visited our website from your IP address. If you are logged into your social media account, it is possible that the respective social media network can link your visit of our websites with your social media profile.

Your interactions with Social Media Features are governed by the privacy policies of the companies providing the relevant Social Media Features.
